

Apex MEC Plan(s) Disclaimer

Apex Minimum Essential Coverage (MEC) Plans are Self-Funded ERISA Plans.

Plans operate on a 12-month basis or Plan Year. Upon renewal, if claims have exceeded surplus, the employer may be liable for claims.

In the event of termination, claims will continue to be processed that were incurred during the plan year for a 6-month Run-out period. The Employer may be liable for claims exceeding the surplus in the MEC claims account during the Run-out period. In the event that there is a surplus, unused surplus will be returned to the Employer after the Run-out period.
